

# Sisso

---

This site will be a new module of expression. I'll change my way to work this year. I'll travel a lot. My goal is to send a photo a day in a more fashionable - report - close-up - glamorous. Therefore I do not mix this work to my series on my portfolio.

The aim will be to meet with galleries abroad in step with pictures for my portfolio and experience a new way of taking images through what I put on this site.
